

Business Analysis Training

Business Analysis at a Glance:

LearnQuest offers Private Training, Public Classes, Project Mentoring and Blended Learning!

The Business Analysis role has gained greater recognition in the past few years as more organizations see the need for structure in conducting functions and activities to help reduce overall costs, manage resources and enhance customer satisfaction. Business Analysis can be broken down into six disciplines, as defined in IIBA's Business Analysis Body of Knowledge:

1. Enterprise Analysis
2. Requirements Planning and Management
3. Requirements Elicitation
4. Requirements Analysis and Documentation
5. Requirements Communication
6. Solution Assessment and Validation

Ultimately, the goal of a Business Analyst is to bring in projects:

- On time
- Under budget
- Within proper requirements

LearnQuest offers dozens of courses focused on the Business Analyst role.

DID YOU KNOW??

Some studies have shown that 50% of completed projects do not meet the original proposed functionality. Estimates for the financial loss of such failed projects is between 20 and 55 BILLION dollars in the US market alone! Business Analysis skills dramatically enhance the success of business and IT projects.

IIBA

The International Institute of Business Analysis (IIBA) is a non-profit association dedicated to the growing field of Business Analysis. Created in 2003, the objectives of the Institute are to develop and maintain professional standards for all aspects of the Business Analysis field. They advocate for certification of Business Analysts and accredit training and professional development providers. The IIBA has become the leading world-wide hub for exchange of information and communication for all people and subjects pertaining to the BA field.

LearnQuest is a charter member of the IIBA and is an endorsed education provider.

DID YOU KNOW??

The IIBA defines Business Analysis as "the set of tasks, knowledge, and techniques required to identify business needs and determine solutions to business problems".
